

## Support for activities of chalk-lining of trees

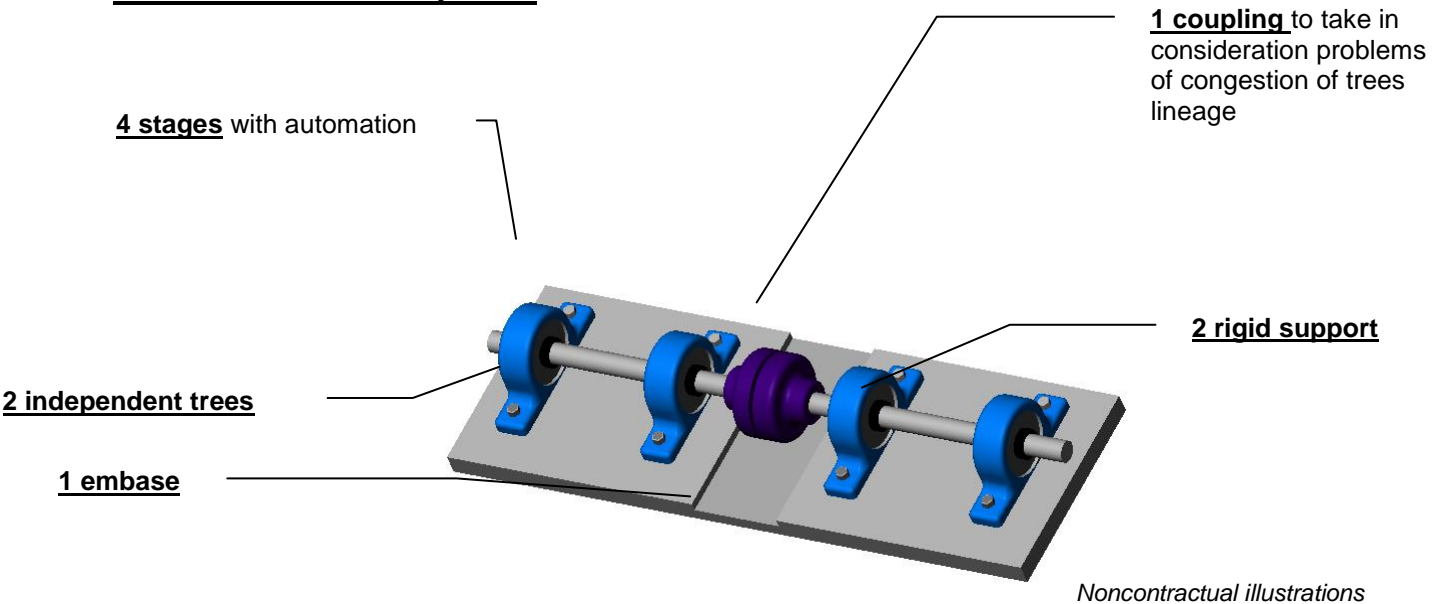

### DESCRIPTION

- The support for activities of chalk-lining of trees allows the implementation of the various techniques of chalk-lining of tree
- The MBP 022 is delivered complete with teaching handbook.
- Design, manufacture and industrial material.
- The didactic interest of the MBP 022 is directed towards various levels and fields of studies

### TEACHING APPLICATIONS

- Chalk-lining of tree of rigid systems (standard engine/pump)
- Chalk-lining of tree of systems on stages (driveshafts type...)
- Application of procedures of adjustment

## Presentation of the System:

## Description of the material:

- 4 **stages** with automation held on supports by 2 screws each one
- 2 independent **trees**
- 1 **coupling**
- 2 **rigid supports** held on base plate by 4 screws each one
- 1 **system of side adjustment** for alignment of trees (ref.: MBP 023)
- 4 **tapped modules** assembled on a base plate
- 4 **screws jack assembled** in the tapped modules and ensuring the adjustment of the position of the stages and/or supports rigid

## Utilities:

- None

## Compatibility in the range:

The MBP 022 is a support intended for the use of the kits of chalk-lining of tree MBP 020 and MBP 022
